Subject: FA URT cancers study quality table draft
Attachments: Formaldehyde - Study Quality Tables - URT 012513.docx

Hi Tom and Dave,

Attached is a draft of URT cancers from FA exposure. There were some studies I had questions about as to indeed how many cases of cancer(s) were attributable to FA exposure, and I highlighted the numbers I came up with in yellow if I wasn't sure.

Hope this will help keep things moving and let me know if there is anything else I can do or help with to improve the table.

Thanks!
Mary
